* Rate based on straight cut on 2cm thick material

Wodiam developed a unique segment type especially for hard composite materials such as Dekton. The Wendy Bond saw blade goes through Dekton and other ultra-compact surfaces at an unprecedented speed and with an extremely refined finish.

- For saws with variable speed spindle adjustment
- Speeds up to 200 per minute in 2cm
- For use on High HP machine
- Cuts straight and miter

Wodiam Blades are a game changer for Bridge Saw Blades. They allow for more refined sawing on ultra compact materials at the fastest speeds in the world. These blades will help you increase productivity and efficiency and they are offered exclusively at Hard Rock Tool.

“The Wodiam Wendy is a great blade for cutting Dekton, we are now cutting Dekton at quartz speeds. What used to take 3 hours now takes about 30 minutes.”

Joe Durfee, American Floor Covering Inc.
WODIAM BLADES

WODIAM Wim Bond Bridge Saw Blade

The Wodiam Wim Bond Bridge Saw Blade has been engineered to cut Dekton® and Ultra Compact Surface material. Feed rate averaging 120 inches per minute in 2cm material.

- Increase your cutting speeds - up to 70%
- For use on High HP machines
- Operator adjust RPM based on diameter, feed rate and material
- Use for straight cuts and miter cuts

Diatex blades are made in Italy and offer long lasting performance you can depend on.

**Diatex MITER BLADES**

**MITERcut for Ceramic BIG Slabs**

**DIATEX MiterCut Ultra Blade**

The DIATEX MiterCut Ultra Cutting Blade is the perfect blade for 45º cuts on 20mm thick Big Ceramic Slabs.

- Suitable for 45º cut on 20mm
- No chipping and no blow-outs
- Neatly cuts at 45º angles
- Made in Italy

DIATEX SPECIALTY BLADES

DIATEX GresCut Blade

The DIATEX GresCut Cutting Blade has been designed to cut Neolith®. Field testing has shown the ability to cut Dekton® and other Ultra Compact surfaces.

- Substantially increase your cutting speeds for the material
- No chipping and no blow-outs
- Available in silent and normal cores
- Specified by Neolith®

DIATEX DekCut Blade

The DIATEX DekCut® Cutting Blade has been engineered to cut Dekton®. These ultra-compact slabs are gaining in popularity as solid surfaces, facades, siding and flooring, but are notoriously difficult cut.

- Substantially increase your cutting speeds for the material
- No chipping and no blow-outs
- Neatly cuts at 45° angles
- Available in silent and normal cores
- Made in Italy

DIATEX LapiCut Blade

The DIATEX LapiCut Cutting Blade has been designed to cut Lapitec® and similar ceramic-based slabs with 12, 20 and 30mm thickness.

- Substantially increase your cutting speeds for the material
- No chipping and no blow-outs
- Available in silent and normal cores
- Made in Italy

**PULITOR Quartzite Saw Blade**

- Pulitor makes the Quartzite Block Saw Blades
- Cuts Taj Majal
- Does miter cuts
- Designed & Made in Italy

**DIAMANT-D VX3 Bridge Saw Blade**

The Diamant VX3 features a new V-shape, sandwiched segment design. For cutting the hardest granites and marbles.

- Unique V-Shape segment design
- 18mm diamond segments
- Titanium encapsulation for improved life
- Designed for use with 8HP+ saws

---

**FARNESE Silver Miter Saw Blade**

The Farnese Silver Miter Bridge Saw Blade is superior diamond formula for mitering.

- Designed for miter cuts
- Reinforced core for miter cutting
- For Granite & Engineered Stone
- Available sizes: 14" & 16"

**Material**
- Granite
- Engineered Stone

**Equipment**
- Bridge Saw

**Usage**

ADW Ikon Ultra Compact Surface Blade

Designed for use on ultra-compact surfaces or sintered stone slabs, such as Dekton®, Neolith® and Lapitec®. These blades provide a clean cut and a long life.

- Sandwich construction segment
- Silent Bodied
- Suited to automatic bridge saw machines
- Available sizes: 12", 14", 16", 18" & 20"

Alpha Silencer III for Quartzite

The Alpha Silencer III provides fast, chip-free cutting for Quartzite and Class 5 Granites at a reduced noise level.

- Designed for Quartzite and Class 5 Granites
- Fast, Chip-Free Cutting
- Miter Cut Capable with 15mm Segments
- Produces Excellent Cuts at Reduced Noise Level
- Available sizes: 14", 16" & 18"

Alpha Silencer III for Engineered Stone

The Alpha Silencer III is a technologically advanced blade for use on engineered stone that produces excellent cuts while achieving superior cost performance with reduced noise levels.

- Designed for Engineered Stone
- Fast, Chip-Free Cutting
- Produces Excellent Cuts at Reduced Noise Level
- Available sizes: 12", 14", 16" & 18"

ZENESIS SAW BLADES

ZENESIS 4 Black Bridge Saw Blade
The Zenesis Black 4 technology distributes the diamond grit into patterned columns, gradually increasing and focusing the highest concentration at the leading edge of each segment.

- New design to outperform all other saw blades on straight or mitered cuts. Up to 20% longer blade life
- Cutting granite, quartzite and engineered stone
- Available sizes: 12", 14", 16", 18" & 20"

**CALL FOR INFO**
ADR Hybrid Puzzle Wheels

Abrasives Alicante

Abrasive Diamond Resined (ADR) Hybrid Puzzle Wheels are designed to polish & gloss both straight & toroidal edges of quartz, marble, granite and ceramic.

- Innovative Puzzle cooling system keeps the tool refrigerated and in optimal working conditions throughout its useful life
- Great for Granite, Marble, Quartz & Ceramic
- Grits: 50, 100, 200, 400, 800, 1500 & 3000
- Available sizes: 125mm and 150mm

Material
- Quartz
- Marble
- Granite
- Ceramic

Equipment
- Edge Polisher
- CNC

DIAMUT Sintered Wheels

We have all types of sintered wheels for your machine!

- Made in Italy

Emperador Diamente

Medium Cup Wheel for Flat Polish

- Use on single head machines
- Excellent life and performance
- Very low production costs
- 4" snail-lock attachment

DIAMUT Wheels Park Pro Edge

For shaping and polishing granite on single head (C-frame) machines, such as the Park Pro Edge.

- Metal wheels formulated with graphite offer less resistance for aggressive cutting
- Metal wheels designed with water spreading bar for optimal cooling
- Extra thick 10mm metal wheels
- Position 1 & 2
- Made in Italy
**Alpha Twincur ES**

Twincur ES is designed to polish the straight edges and bevels of engineered stone. Fabricators of engineered stone and quartz will love the ease of operation and the fast, consistent results.

- For Square Edge and Beveled Edge applications
- Easy Operation and Fast, Consistent Results
- Outstanding Cost-Performance
- For use on Single-Head and Multiple-Head Machines
- Available sizes: 4”, 5” & 6”

**Alpha Twincur Resin**

Twincur ES is designed to polish the straight edges and bevels of granite and works on wet polishing single-head machines as well as other polishing machines that use the 4” snail lock adapter.

- For Square Edge and Beveled Edge applications
- Easy Operation and Fast, Consistent Results
- Polishes Material Edges Up To 1-1/4” Thickness
- Outstanding Cost-Performance
- For use on Single-Head and Multiple-Head Machines
- Available sizes: 4”

**Alpha Twincur Final**

Water volume on automatic edge polishing machines can be difficult to control. Alpha Professional Tools® produced a third final polish disc that is capable of performing with a significantly higher volume of water than the black or white final polish. Fabricators now have a choice and will love the super glossy finish they can achieve with these discs.

- For Square Edge and Beveled Edge applications
- Choice of Three Different Polish Types (Black, White and Green)
  - Gives Operator Choice of Water Flow
- Achieves A Super Glossy Finish
- Easy Operation and Fast, Consistent Results
- Outstanding Cost-Performance
- For use on Single-Head and Multiple-Head Machines
- Available sizes: 4”
SLAB POLISHING & FINISHING

ADR Oval Disc

Novel system for polishing and shining surfaces, through the revolutionary Diamond Resin Abrasive OVAL (ADR).

- Developed to optimize the polishing of different materials.
  Used on CNC machines.
- 100% effective structured abrasives
- Great for Granite, Quartz, Marble & Terrazzo
- Grits: 50, 100, 200, 400, 800, 1500 & 3000

Material
- Quartz
- Marble
- Granite
- Terrazzo

Equipment
- Semi-Automatic
- CNC

10” Wheel Diamond iFlex

Designed to create new textures such as “Leather”, “Silk”, “Honed” as well as polished & high gloss finishes

- Flexible filaments with high resistance to wear
- Perfect finish & excellent performance
- Available sizes: 10” & 12”
- Grits: 24, 36, 46, 60, 80, 120, 180, 240, 320, 400, 500, 600 plus much more

Material

- Traditional

4” Ageing Wheels

Designed to obtain “Aged” and “Satin” finishes of porcelain stoneware with automatic machinery, CNC & portable machines

- Great for granite, marble, quartz and ceramic
- Resin-Coated
- Available sizes: 4”, 5” & 6”
- Grits: 24, 36, 46, 60, 80, 120, 180, 240, 320, 400, 500, 600 plus much more

Material
- Quartz
- Marble
- Granite
- Ceramic

Equipment
- Semi-Automatic
- CNC
- Floors
- Traditional

Frankfurt Bushhammer

Destined to bushhammer stone materials

- Great for Granite, Marble, Terrazzo & Concrete
- Anti-rust treatment
- High performance
SLAB POLISHING & FINISHING

**Frankfurt Bushhammer**
Destined to sandblast Marbles, Granites & other stone materials
- Novel sandblast finish
- Anti-rust treatment
- Registered Patented Invention

**System 100 Bushhammer**
Novel High-performance bush hammer system, designed to make anti-slip bands
- Great for granite & marble
- Universal coupling
- Finishes (Coarse, Standard, fine & non-slipping & etc.)

**ADM Frankfurt**
Abrasive Diamond Metallic
- Great for Granite, Marble, Terrazzo & Quartzite
- Maximum precision in processes & products
- Grits: 10, 20, 40, 60, 80, 100, 120, 140, 170 & 200

**ADR Frankfurt**
Abrasive Diamond Resined (ADR), designed to polish and gloss Marbles, Granites and other Stone Materials.
- Great for Granite, Marble, Quartz & Concrete
- Designed to polish & gloss
- Grits: 36, 46, 60, 80, 120, 220, 320, 400, 500, 600 plus much more
HYS Edge Profiling Wheels

These diamond and polishing wheels for Granite & Engineered stone are designed by Diamut to increase the CNC feed-rates to improve production. Carefully constructed of premium materials and with a high performance bond and diamonds, feedrates can reach up to 12,700 mm/min or 500 inches/min.

SUPER Z MILLING SEAM WHEELS

To ensure a tight and clean seam edge, Diamut has multiple options when it comes to high speed stock removal. The traditional Power Edge utilized a straight segment and the Hyper Speed Power Edge, which is designed with an arrow shaped diamond to extend the tool life and lower the amp draw on the spindle.

DIAMUT CNC TOOLING

PRE-CUT WHEELS

Diamut manufactures pre-cut grinding wheels specifically for roughing marble, granite and synthetic materials. Pre-cutting wheels are available in a Y (45 degree) and X (top & bottom 45 degree) version wheel, designed to remove the bulk material for contoured profiles/shapes.

CALL FOR INFO
GAUGING CALIBRATION WHEELS

The calibration wheels, also known as a stubbing or gauging wheel, is used to provide a consistent and even thickness prior to running the profile tooling. This allows your profile tooling to provide a beautiful and consistent edge and ensure a perfect profile matching at the seams.

DRILL BITS

Continuous Rim Bit
Superior cut quality suitable for even the finest materials, for a flawless finish. These are the key characteristics of Diamut’s range of continuous rim drills
- Diameters from 6 mm and up
- For marble and granite

Segment and Blind Hole Bit
Suitable for even the most extreme processing operations while maintaining maximum precision, Diamut’s segmented drills are setting new standards in terms of durability and cutting capacity. The Diamut drill range also features blind hole drills, designed for creating blind holes for slots, channels in the material and support connections.
- Diameters from 18 mm and up
- For granite

Diamut CNC Dekton Core Bit
Specifically designed for use on Dekton®, this core bit is a fast, fine cutting bit with a minimal chipping. Certified and approved for use on this material by Cosentino. Each version is available with various binders and grits. This ensures the perfect balance between tool durability and perfect finish quality.
DRILL BITS

ADW Thin Wall Core Drill Bit

The ADW Thin Wall Core Bit are Made in Spain and specifically designed for use on Porcelain, Hard Composite and Dekton® materials. They are engineered with a combo 1/2 Gas and 5/8-11" arbor for the ability to be used with CNC machines and hand tools.

- Available in all sizes
- Super clean & fast coring
- Use wet
- Made in Spain

ORDER ONLINE

POMDI CNC Core Bit

The drill bits have a continuous crown and very thin walls, which reduces the contact surface and improves the finish of the hole. They are welded with laser to avoid cracks and improve the effectiveness of the operation.

ORDER ONLINE

NICOLAI CNC ½ Gas – 1 3/8 Core Drill Bit

A Continuous rim core bit is suggested when you need a highly smooth and accurate holing. Thanks to the continuous rim this tool gives you a slower cutting, if compared with a segmented ring core bit, but it ensures a clean cut even when exiting the material at the end of the holing.

- For Granite, Quartz, Engineered Stone, Dekton, Lapitec, Laminam and Neolith

ORDER ONLINE
Stone Pro’s Innovation Department is extremely pleased to introduce our new line of Stone Pro Router Bits. Fast cutting, long lasting and economical.

Available in all shapes!
CORE DIAMOND BITS

MAX-TEN Core Bit
The Max 10 core bit is designed with premium grade diamonds for superior cutting performance and longevity. Perfect for granite, marble, porcelain and concrete.

- Turbo T-Segmented
- Vacuum Brazed
- Fast Cutting
- Dry use
- ISO: 9001

DOMINATOR Core Bit
For ease of drilling and core release. Perfect for use in the field, dry or wet. T-segmented with diamond side protection on outside and inside. Use on granite, marble, travertine, limestone and concrete.

- Available in all sizes
- Super clean & fast coring
- Use wet
- Made in Spain

ADW Thin Wall Core Drill Bits
For ease of drilling and core release. Perfect for use in the field, dry or wet. T-segmented with diamond side protection on outside and inside. Use on granite, marble, travertine, limestone and concrete.

- Available in all sizes
- Super clean & fast coring
- Use wet
- Made in Spain

Vacuum Brazed Core Drill Bits
Vacuum brazed diamond core drill bits are the best for cutting hard porcelain and ceramic. Can be used wet or dry, with smooth coring, minimal chipping, less heat generation, no cracking and better finish quality.

- Multipurpose core bits
- Great for porcelain and engineered material
- Long lasting, and range from different sizes

Green Core Diamond Drill Bits With Pilot
These core bits are engineered with a 1/4 inch Pilot Bit to produce clean, easy, and precise core drilling. For use drilling granite, porcelain, artificial and natural stones. Special bond for granite and hard stone.

- Sintered with premium grade diamonds for fast, smooth performance and longer product life.
- Use wet or dry with hand drills
- Sizes: 1”, 1 1/4”, 1 3/8”, 1 1/2”, 1 3/4”, 2”

ORDER ONLINE

Thin Wall Core Bits
Fast cutting and excellent for granite or marble. It includes a 5/8”-11” thread and is ideal for fabrication shops that want to maximize productivity.

- Fast cutting
- 5/8-11 center thread
- Excellent for use on granite, marble, engineered stone, porcelain, & other hard materials
- Sizes: 1 1/4”, 1 3/8”

ORDER ONLINE

Montolit Milling & Countersink Bits
Montolit bits are designed to give a smooth, high-end finish. Very useful to reduce the risk of cracking with standard and large format tiles. Improve the edge finishing of exposed holes. Milling bits are designed to enlarge, shape and/or round bevel existing holes.
TURBO BLADES

ECO-TECH

Designed for delivering the highest cutting performance and long life at an affordable price. This turbo rim diamond blade is optimized for granite cutting. Find out why so many of our customers rely on this fast cutting and reliable turbo blade.

- Grade A diamond crystals for high sawing performance
- Special bond for cutting granite countertop slabs
- 5 in. x 2.0 mm x 7/8 in. arbor
- Available in 4”, 4.5”, 5”, 6” & 7”

ORDER ONLINE

PANTERA

- When you demand nothing short of high quality and long life, look no further than Pantera Turbo Blades.
- Available in 4”, 4.5”, 5”, 6” & 7”

DUST SAFETY EQUIPMENT

**GVS ELIPSE P100 Mask Respirator**
- Approved to NIOSH Standard
- Twin filter ready to wear half mask
- Latex & Silicone free
- Lightweight
- Available sizes: Medium & Large

**GVS Elipse P100 Replacement Respirator Cartridges**
- Protects from dust, metal fumes, oil and water mists, microorganisms and viruses
- 99.97% minimum filter efficiency
- Constructed with activated carbon, HESPA synthetic media with a TPE over-mould, and an ABS shell
- For use with Elipse Half Face Respirators P100
- 1 pair

**Gateway Safety GloPlugz® Corded 100ct**
Soft, comfortable, disposable earplugs, GloPlugz offer serious protection at an affordable price.
- Extremely smooth, tapered design allows for incredibly easy insertion
- Non-allergenic polyurethane formula is extraordinarily soft and comfortable
- Glossy purple cord makes compliance checks easy and keeps earplugs close at hand. Independently tested to a 31 Noise Reduction Rating—one of the highest earplug NRR ratings available.

**Elvex Blue Foam Earplugs**
Offers a high level of comfort, excellent noise reduction properties, easy insertion due to a tapered shape and moderately slow expansion rate, plus a high level of hygiene.
- Pairs are packaged in a polyethylene bag.
- Without Cord
- Box of 100
Elvex Go Specs Safety Glasses
The EVA closed cell foam assists in preventing eye irritation from dust, dirt, sand, cement, chemicals and more.
- Anti-fog SuperCoat coating
- High velocity impact resistant – 4x than ANSI Test Standard
- Soft and flexible foam seal
- Angle adjustable temples
- 100% UV protection

Elvex TTS Safety Glasses
The Elvex TTS offers a close fit and excellent protection for an economical pair of safety glasses.
- Hard coated polycarbonate lens
- Universal nose bridge and temple tips
- 100% UV protection

Gateway Safety StarLite Safety Glasses
The original, industry-leading design in safety eyewear, combining stylish protective eyewear with all-around impact protection.
- Incredibly lightweight, weighing less than one ounce
- Deep, universal-fit temples provide side protection equal to that of large side shields
- 100% UV protection
DUST SAFETY EQUIPMENT

**DeltaPlus Disposable Respirator Dust Mask M1200**
- FFP2 moulded, disposable half mask made of non-woven synthetic fiber
- Protects against moderately toxic liquids and solid particles
- Can be used in concentrations up to 10 x OEL.
- Protection Factor: 12.5
- 20 pieces per box

**DeltaPlus Disposable Respirator Dust Mask with Exhalation Valve M1200V**
DeltaPlus M1200V is a high quality N95/FFP2 disposable respirator mask with exhalation valve, dual self-adjusting straps, metal nose clip, and nose pad, for increased comfort.
- Molded, non-woven synthetic fiber disposable respirator mask
- High efficiency exhalation valve
- 10 Pieces per box

**Gateway Safety Particulate Unvented Respirator**
- Large, contoured design makes breathing easy, reducing worker fatigue
- Molded nose bridge, with non metal nosepiece not pinching required
- Adjustable, one-piece cloth head strap with added comfort and durability
- Niosh approved N95 level protection
- 95 percent filtration against particulate aerosols free of oils below the PEL

**Gateway Safety Particulate Vented Respirator**
- Large, Contoured Design Makes Breathing Easy, Reducing Worker Fatigue
- Molded Nose Bridge, With No Metal Nosepiece – No Pinching Required
- Adjustable One-Piece Cloth Head Strap
- NIOSH Approved N95 Level Protection
- 10/Box
DUST SAFETY EQUIPMENT

**Alpha Ecoguard Type CD**

- Wet/dry cover for drilling and core drilling applications
- Fits most vacuum dust hoses
- Contains dust and water when drilling with up to a 2-1/2 bit
- Can be secured on horizontal and vertical surfaces with vacuum during application
- Cost-effective dust removal solution
- Prevents splashing when used with water

**Treds Over the Shoe Slush Boots**

Deemed by users as the very “best construction boots” on the market, TREDS 17” makes your jobs easier by being extremely light weight and true to size fit over leather work boots. Made out of 100% natural rubber, TREDS material cross-links, so that if you do get a puncture/tear, the rip won’t continue to run.

- Sizes: M (7.5-8.5), M/L (9-10), L (10.5-11.5), L/XL (12-13), XL (14-16), XXL (17+)
- Great height for: concrete pouring/finishing, trench work, landscaping and farming

**Alpha Multi-Purpose Waterproof Apron Long-Sleeved**

- One size fits all, 55”L x 58”W
- D900 oxford / pu coated material makes it waterproof for wet or dry environments
- Protects from dust, water and other chemicals such as polishing slurry
- Rubber cuffs which provide full coverage
SAWS FOR STONE & TILE

ABACO Stone Saw MODS1
• 3HP motor and guided by dual linear bearings on induction hardened chrome bar (avoid rusting)
• Ideal for construction sites as well as workshops
• Bolted down casted aluminum working tables
• Electric drive submersible water pump
• Wheels and rollers for effortless single-handed transport

CALL FOR INFO

ABACO Stone Saw MODS2
• Ideal for construction sites and workshops
• Roller conveyor makes for easy loading
• Adjustable stops make exact parallel cuts
• Electric direct drive fully submersible water pump
• Includes 2 side benches with rollers and 2 support arms with stops
• Wheels and rollers for easy transportation

CALL FOR INFO

ABACO Tile Saw TS1
• Casted aluminum working table guided by dual linear bearings on induction hardened chrome bars (avoid rusting)
• Cuts accurately every time with angle ranges from 45-90 degrees
• Submersible water pump provides high output coolant for maximum protection to the diamond blades
• Specially designed table that supports larger size tiles
• Wheels for easy transportation

CALL FOR INFO
OMEGA Blue Ripper Sr. Rail Saw
Cuts through 4cm thick stone. Simple and strong, the blade cuts next to rail so setting up is fast and easy. No gauge, shims, or offset measurements are needed. The reduced weight also minimizes risk of cracking narrow or thin pieces of material.

- Up to 10 FPM cut speed
- 1730 RPM Air Cooled Induction Motor (2hp & 3hp models)
- 3450 RPM Custom Water-Cooled Induction Motor (5hp model)
- Fits blades up to 14-1/2 inch (368mm) in diameter

OMEGA Blue Ripper Jr. Rail Saw
This powerful, light-weight, portable rail saw cuts granite countertops with speed, accuracy and quality. The Blue Ripper Jr. Rail Saw makes full plunge cuts up to 4 cm in depth. Using the rail system there is no need for gauges, shims, or offset measurements.

- Up to 4 FPM cut speed (single pass through 2cm absolute black)
- full plunge cuts up to 4cm deep
- Accepts up to 8" blades
- Standard 5/8" blade Arbor

OMEGA Blue Ripper Miter Master Rail Saw
Create a perfectly mitered edge by cutting both 45 degree angles simultaneously. This is the easiest, simplest way to create a perfect miter. This saw is ideal for mitering standard stone slabs, prefabs, or large format porcelain tile slabs.

- Cuts both 45 degree angles simultaneously
- Full plunge through 3cm
- Accepts up to 6" blades
- 7/8" Arbor

TILE SAWS

RUBI DC250 (1200) Bridge Saw Machine

- 48” Rail Saw
- Tilting Cutting head for 45º cuts
- Zero Dust System
- Blade Cooling with controllable waterpump

ORDER ONLINE

HUSQVARNA TS 70 Tile Saw Machine

- Perfect for large and small tile
- Tilting Cutting can make 225º & 45º cuts
- Blade max diameter - 10 in
- Max Cutting length 28.35 in

ORDER ONLINE

CORTAG ZAPP-600 Electric Wet Saw

- Robust equipment with reinforced motor indicated to cut ceramic tiles, stones, marble, granite and paver
- Reinforced aluminum frame
- Diamond cutting blade with cooling system
- Retractable stand with wheels for easy transport
- Sliding table with angle adjustment: 0 to 45 ° right and left
- Head with Angle adjustment: 0 - 22.5º and 45º

CALL FOR INFO
RUBI TZ Tile Cutter
TZ manual cutters are a new concept in the manual cutting of ceramics, with a separation capacity never seen before on the market and with innovative constructive solutions.

- Large cutting capacity up to 21mm
- Robust & foldable structure
- Easy transport
- Powerful separator (up to 3,300 lbs.)

RUBI TX-900 36 5/8” Tile Cutter
The RUBI TX-N tile cutters are ideal for intensive cutting of ceramic tiles, especially for cutting porcelain (Bla type) and extruded (Al type) tiles.

- Cutting length 36 5/8”
- Quick clamping system for the square
- For large format tiles
- Separator power (2,205 lbs)

RUBI TX-700 28” Tile Cutter
The RUBI TX-N has biomaterial handles on the TX-N tile cutters, with an impeccable ergonomic design, give the user greater comfort while working.

- Cutting length 28”
- Quick clamping system for the square
- Swivel bracket with central pivot
- Separator power (2205 lbs)

RUBI TR-600 MAGNET 23.6” Tile Cutter
The TR-MAGNET tile cutters allow for intensive cutting of ceramic tiles, especially when we refer to BIII type and stoneware tiles of BIIa type, but they also offer us optimum performance in the frequent cutting of porcelain tiles with thicknesses of less than 9/16”.

- Cutting length 23.6”
- High breaking power
- Base supplement for large tile format
- Separator power (1764 lbs)
LARGE FORMAT TILE TOOLS

RUBI Slim System Tile Cutter
The slim system cutter tile cutter is a tile cutter specially designed for porcelain tiles on the market of up to 9.84 Ft by 3.94 Ft and between 1/8 - 3/8 in. thick.
• Designed for porcelain tiles
• Aluminium guides
• Progressive separation of the material
• Cutting capacity if 122 in

RUBI Slab Table Workbench
Workbench for cutting and handling large-format ceramic sheets using the tools of the Slab System range. The extra reinforced aluminum bars give the SLAB TABLE a high rigidity and great stability with a maximum load capacity of up to 550 lbs (250kg).
• Easy to set up
• Anodized aluminum guarantees sturdiness
• Adjustable legs with rubber feet
• Foldable for easy transport

RUBI Slim Easytrans Transport System
The SLIM SYSTEM EASYTRANS transport system is specially designed for handling large format, thin porcelain tiles up to 126 in. long.
• Designed for handling large format
• Includes two extendable & adjustable guides
• For sheets up to 9.8 ft
• Maximum load: (132.2 lbs)

RUBI Delta Leveling System
Save time in installing large format tiles, particularly in rectified porcelain tiles, as well as to ensure perfect installation and leveling with any material and dimensions. Prevents the movement of the tiles during the setting of the adhesive and, during installation, the number of corrections in the position of the ceramic tile itself is reduced.
• Kit consist of 1 pliers, 100 strips and 100 reusable wedges
• 6 positions height adjustment according to the thickness
• 3mm strip for tiles 1/4” to 19/32”
RUBI TC-125 5” Circular Saw Kit

The TC-125 kit is part of the SLAB system for porcelain slabs and large format tiles and includes all the elements necessary for cutting.

- Circular cutter TC-125.
- 3 slim cutter guides of 110 cm
- 2 fixing suction cups for rough surfaces (RM)
- 1 TCR-125 diamond disc for dry cutting (compatible with wet cutting) of porcelain stoneware (TCR not suitable for 45° cutting)
- 2 clamps for additional fixing of the SLIM guide

RUBI SLAB TRANS Heavy Duty

The slab trans heavy duty conveyor is specially designed for the handling of ceramic sheets and large format tiles up to 320 cm long and can be used as a complement to the slim cutter and tc-125 cutting systems.

- 6 vacuum cups for any type surface
- Equipped with a set of perpendicular crossbars
- Two retractable perpendicular aluminum guides

RUBI Slab Trolley Transport

Transport and maneuvering system for large-format sheets. Especially indicated for the handling of tiles with thickness from 6mm. Rubi Slab Trolley, incorporates an extendable arm to facilitate the maneuver of loading and unloading of the large format sheets to the work table.

- Easy fix joining system making assembly fast and easy
- Light, compact and reinforced aluminum
- 360° rotating wheels with stop and fix braking
- Rubber bumpers

RUBI Slim Separator

The slim separator is the perfect complement for the cutting of ceramic sheets with slim cutter when the sheet thicknesses are equal to or greater than 8 mm. in addition to its main use (ceramic sheet cutting), the slim separator can also be used as auxiliary separator in large format tiles.

- Separate thickness of 8mm or more
- Auxiliary breaker for the cut of slim porcelain slabs or large tiles
LARGE FORMAT TILE TOOLS

RAIMONDI Easy-Move Vacuum Frame
• Lightweight & easy to transport large slabs
• Two pairs, Aluminum profile
• Equipped with “vacuum” pump suction cups
• Maximum slab length 10.5’
• Available with crossbars or without

RAIMONDI BM180 MKII Modular Working Bench
• Ideal for cutting & processing large format slabs.
• Can combined more than one
• Folding legs for easy transport
• Maximum load 331lbs.

RAIMONDI Raizor Cutting System
• Cutting system for large format tiles up to 10.9 ft
• Guides made of sturdy aluminum
• Two connectable guides, length 5.2 ft
• Suction cups handles perform a 180° movement

RAIMONDI Tip Top Face-Up Miter Clamping
• Designed for stairs & countertops
• Allows the user to see the corner
• No tile length limit, makes it perfect for large format tiles
• Suitable for corner bonding

ORDER ONLINE

800-927-2490
LARGE FORMAT TILE TOOLS

RAIMONDI Volpino Compact Vibrator & Tile Beater
• Designed to vibrate surface of large format
• Helps air out any air pockets
• Stain-free rubber plate
• Does not damage, prevents stain & damage
• Motor power: 25 watt

ORDER ONLINE

RAIMONDI Closer Tile Aligner Device
• Designed to bring & adjust the slab properly
• Each suction entities grip onto a different tile
• Device to accost slabs, which acting mechanically makes this task easier

ORDER ONLINE

RAIMONDI Fido Tile Support
• Particularly useful for laying large format tiles
• Comfortable, stable & safe support during operation
• Ergonomic design distributes the weight of the body in an optimum manner relieving fatigue

ORDER ONLINE

RAIMONDI Tile Hand Tile Beater
• To eliminate the air that can remain below the slab
• Rubber bottom
• No stain or damage

MACHINES

Rhino RL500 Grinder

The award winning Rhino RL500 concrete grinding machine was specifically designed to be compact while having the power & performance to keep up with bigger machines on the market today.

With each pass the RL500’s counter rotating heads double cut & cross cut, cutting your job time in half and eliminating track marks common to other concrete grinders. The Rhino is truly 100% trackless!

- Dual vacuum manifolds for efficient dust control
- Runs in forward or reverse
- Counter rotating heads (double cut and cross cut with each pass)
- Wet or dry grinding
- Extremely durable floating UHMW dust skirt
- Accepts standard trapezoid tooling as well as Rhino Style
- Grinds as close as 1/8" to the edge
- Extremely Heavy Removal: 500-850 sq./ft per hour.
- Heavy Removal 600-1050 sq./ft per hour.
- Light Removal 900-1300 sq./ft per hour.
- Grinding & Profiling 800-1450 sq./ft per hour.
- Polishing 1200-1800 sq./ft per hour

Rhino RS150 Grinder

Weighing in at 150LBS with a 14” footprint, the RS150 has all the same features as the award winning RL500.

This 100% trackless machine was designed with six counter rotating heads which double cut & cross cut with each pass – which ultimately cuts the number of passes in half when compared to planetary grinders.

- Dual vacuum manifolds for efficient dust control
- Grinds as close as 1/8" to the edge
- Counter rotating heads (double cut and cross cut with each pass)
- Wet or dry grinding
- Extremely durable floating UHMW dust skirt
- Uses Rhino style tooling
- Extremely Heavy Removal: 100-150 sq./ft per hour.
- Heavy Removal 200-300 sq./ft per hour.
- Light Removal 250-400 sq./ft per hour.
- Grinding & Profiling 300-450 sq./ft per hour.
- Polishing 400-650 sq./ft per hour

CALL FOR INFO
Husqvarna PG450 18” Floor Grinder & Polisher

PG 450 is a versatile and user-friendly planetary floor grinder. Perfect for a wide range of applications, e.g. coating removal, concrete grinding and concrete polishing. It is also suitable to use to make Husqvarna HIPERFLOOR®. With its 18 in. grinding width it is excellent for both small hard to get to areas, as well as larger surfaces. It is ideal for rental and both professional and semi-professional applications due to its many self-adjusting benefits. 1-phase means it is suitable for industrial and domestic applications. It can easily be folded and divided without tools for transport and storage.

ORDER ONLINE

Husqvarna PG280 11” Floor Grinder

PG 280 is a single disc floor grinder that you can quickly convert for edge grinding on both sides. It efficiently grinds adhesives, paint, epoxy and spackle. With a grinding width of 11 in. it is suitable for small to medium concrete areas. It is available in both 1-phase and 3-phase versions. Designed to facilitate an ergonomic work position, it is easy and convenient to use. The machine is light and compact and therefore easy to transport and set-up.

ORDER ONLINE

Newgrind RX7 Hand Grinder & Polisher

This impressive three headed hand grinder attachment is ideal for floors, countertops, stairs, ledges and walls. The RX7 is uniquely shaped for those hard to reach spaces, so versatile it can be used on concrete, stone, terrazzo and even hardwood. Weighing only seven pounds the RX7 is lightweight and agile and uses any standard 4” Velcro backed tool. Perfect for those hard to reach tight corners, the adjustable dust skirt allows you to get right up to the wall for detailed edging.

ORDER ONLINE
Pulse-Bac 1050 HEPA Vacuum w/ Auto Filter Cleaning

The 1050H model vacuum is EPA RRP compliant and can be used in the clean up and control of fugitive dust when working with materials like Lead Paint, Asbestos and Silica. Pulse-Bac® Automatic Self-Cleaning Technology keeps filters clean and suction consistent. This revolutionary technology maintains peak performance with no blowers, shakers, compressors or buttons to push. With a Pulse-Bac® the only action needed is to turn it on and go to work, physics takes care of the rest. This lets you capture more dust in an easier, more efficient and more profitable way. Great For:

- Floor Grinders
- Hand Grinders
- Floor Sanders
- Job-site Table Saws & Track Saws
- Chop & Miter Saws
- Random Orbit Sanders
- Routers
- Job-site & Shop Cleanup

ORDER ONLINE

Pulse-Bac 1250 Dust Collector Bagger Package

Industrial grade vacuum designed to collect, capture and control dust and debris generated by surface preparation equipment and manufacturing machinery. Our revolutionary design in vacuum filtration automatically flushes the filters clear while you work, using only ambient air and vacuum. This patented technology stops the filters from facing with dust or debris and clogging during operation. Maintain peak performance with no blowers, shakers, compressors or buttons to push.

The 1250 model comes standard with Pulse-Bac® Technology, our Cyclonic Debris Management system, a 20 gal. powder coated steel tank, HEPA H-13 filters, and a 5 caster steel dolly with non-marking casters. An optional tank capacity sensor and three options for collecting debris are also available.

ORDER ONLINE

Pulse-Bac 550 HEPA Vacuum Lift Quick Package

The 550H provides Dual Stage HEPA filtration. It features the 5 Point HEPA Filter and an additional exhaust side HEPA filter. Both the 5 Point Filter and the exhaust side filter are individually tested to meet the 99.97% @ 0.3 microns standard required by most regulations and recommended when working with many materials.

- Pulse-Bac Self-Cleaning Technology
- Durable Steel Construction
- 1.5” Locking Inlet
- Multiple Mobility Options
- 5 Point HEPA Filter(s)
- Optional Auto Tool Start

FAST CHANGE METAL BONDS

1 Segment Fast Change Metal Diamonds

Fast Change Diamonds are designed for use on grinders that have been modified with fast-change diamonds are designed for aggressive grinding applications.

• Grits: 16/20, 30/40, 60/80

ORDER ONLINE

2 Segment Fast Change Metal Diamonds

Fast Change Diamonds are designed for use on grinders that have been modified with fast-change diamonds are designed for aggressive grinding applications.

• Grits: 18/20, 30/40, 60/80, 120

ORDER ONLINE

2 Segment Fast Change PCD Diamond Tooling

The PCD is designed with an aggressive diamond segment that acts as a stabilizer and depth guide. It aggressively scrapes the thickest of coatings, and then follows with a conventional grind—all in one pass.

• Designed for medium to heavy coating removal
• Fits Redi Lock plates
• Available in either left or right spinning versions

ORDER ONLINE

1 Bar Trapezoid Fast Change PCD Metal Diamonds

PCD Trapezoid 1 Bar Diamonds are designed for fast change floor grinding machines. Ideal for removal of epoxy, paint, glue, mastics and coatings. Soft bond #18-20, 30/40, #60/80, #120/150 and Medium bond #30/40, #60/80, #120/150

• Available left-counterclockwise or right-clockwise
• Use wet or dry
• Fits fast-change floor grinding machines

ORDER ONLINE
CONCRETE DIAMOND PADS

SmartKrete 3” Conquer Premium Resin Polishing Pads
Conquer Premium Resin Bond Polishing Pads. For Dry Polishing of concrete and cement bases terrazzo floors. 9mm segment height offers long durability.
- 18 Segment Cup Wheel
- Grits: 30, 50, 100, 200, 400, 800, 1800, 3500

ORDER ONLINE

Semi-Metal Terrazzo 3” Concrete Polishing Pads
- Used after the metal bond grinding tools to remove their scratch pattern, followed by the resin tools
- Premium grade for extra durability and long life under the heaviest machines
- Very aggressive and great for transitioning between the metal and resin steps
- For concrete, terrazzo, marble and granite
- Grits: 30, 50, 100, 200, 400
- Wet Use

ORDER ONLINE

SmartKrete Transitional Semi Metal 3”
Transitional Semi-Metal hybrid diamonds are designed for use between metal and resin polishing pads. Semi-Metal Hybrid diamonds are velcro backed and must be used wet.
- Grits: 30, 50, 100, 200, 400

ORDER ONLINE

SmartKrete 3” Pads 3mm
SmartKrete 3mm Concrete Diamond Polishing Pads are an excellent solution for the removal of scratches left behind by the metal bond grinding steps. They are 3” hook and loop-backed, and can be used on any floor grinder, using hook and loop-back.
- Grits: 30, 50, 100, 200, 400, 800, 1500, 3000
- 3mm thickness
- Wet Use

ORDER ONLINE
CONCRETE DIAMOND PADS

**SmartKrete Elite Concrete Pads**

These pads can be used as the final steps in a polishing process to give an even higher level of shine that was not achieved by normal polishing with high grit resin diamonds. They can be integrated into normal floor cleaning / maintenance systems to keep a nice shine on polished concrete and terrazzo floors.

- Available sizes: 20" & 27"
- Grits: 1500, 3000, Buff

**STONE PRO Premium M-Series Diamond Impregnated Pads**

Easy to use 4-step process (HONE, M1, M2 and M3) for polishing and maintaining marble and travertine floors. High concentration of quality diamonds enables pads to renew the shine on marble and travertine floors where other pads fail.

- Available sizes: 7" & 27"
- Grits: M1-800, M2-1500, M3-3000

**SmartKrete DRS 7” Hybrid Rings and Dot Pads**

Rubber dot technology last longer and cut faster with even better refinement. These wedge-shaped dots put more diamonds on the outer perimeter of the pad, improving both cutting speed and edge refinement. Wider, directional water channels increase water flow, effectively flushing slurry away from the cutting surface, improving both life and refinement while at the same time reducing slurry clogging and cleanup time. Improved, proprietary, 2nd generation resin dot formulations are available ONLY through Superior Surface Solutions.

- Grits: 50, 100, 200, 400, 800

**STONE PRO Semi-Metallic Rings**

The most aggressive semi-metal grinding tool for swing machines, burnishers, and scrubbers. Ideal for aggressive grinding on concrete, terrazzo, and stone. Copper bond ensure aggressive and long life.

- Grits: 30, 50, 100, 200, 400
GRINDING CUPS

7” Arrow Segment Diamond Grinding Cup Wheel 5/8”-11 Arbor

This grinding cup wheel is perfect in construction for concrete surface preparation and tilt wall finishing at a fast removal rate. Great for removing of glues and adhesives as well. This is also great for fast grinding and rough deburring. This cup wheel is ideal for fast stock removal of concrete, stone and masonry, with very low dust. An excellent choice for finer finish grinding.

Concrete Cup Wheels Fan Style Segments

Cup Wheels are used for grinding, leveling, shaping, debris removal, and polishing of concrete and stone surfaces. The placement, pattern, and shaped configuration of the diamond segments on a cup wheel depend on the task at hand.

- 18 Segment Cup Wheel
- 12 Segment Cup Wheel
- 24 Segment Cup Wheel

Tornado Non-Threaded Grinding Cup Wheels

Tornado Non-Threaded Grinding Cup Wheel Supreme compliments the polishing process. From countertops to edge work, the Tornado cup wheel compliments the first 2 to 3 steps in the polishing process. With an 18 seg configuration, available in 3 grit sizes, it can give the freedom of an aggressive grind while still delivering a smooth finish. Twister cups have a flat core allowing more area to long segments. This helps reduce the risk of gouging the floor and circle marks that are often associated with cup wheels.

PCD-Polycrystalline Diamond Cup Wheels

Good for removal of thick coatings, epoxy, urethane & other membranes with no loading up. For best results, use to remove the bulk of thick coatings without continued contact with concrete.

- For use on Hand-Held Grinders
- More aggressive than the 8 segment double row
- Quarter round segments for fast production and long life
GRINDING CUPS

SmartKrete Smart Edge Ceramic Cup Wheels 3mm

Ceramic bonding grinding wheels for polishing concrete and smoothing scratch patterns, particularly around corners and edges. Very effective at removing scratch marks left by metal bond grinding wheels.

- Arbor size: 5/8"-11
- Grinding Method: Wet or Dry
- Available grits: 30, 50, 100, 200 and 400
- Available sizes: 5" & 7"

SmartKrete Smart Edge Ceramic Cup Wheels 5mm

Exclusive 5mm thick, double segmented ceramic transition cup wheels. Get edge work done faster and last 2x longer. Ceramic bonding grinding wheels for polishing concrete and smoothing scratch patterns, particularly around corners and edges. Very effective at removing scratch marks left by metal bond grinding wheels.

- Arbor size: 5/8"-11
- Grinding Method: Wet or Dry
- Available grits: 30, 50, 100, 200 and 400
- Available sizes: 5" & 7"

Concrete Transitional Cup Wheels

Ceramic bonding grinding wheels for polishing concrete and smoothing scratch patterns, particularly around corners and edges. Ceramic bond grinding is very effective at removing scratch marks left by metal bond grinding wheels.

- Blends well with the floors
- Eliminates gouging
- One tool for hard and soft concrete
- Aggressive grind with superb finish
SmartKrete Smartguard SP Stain Protector Guard

SMARTGUARD SP is an acrylic and lithium formulation that improves the surface sheen and stain resistance of conventional concrete, hardened concrete, and cement terrazzo floors. Surfaces treated with SMARTGUARD SP resist damage from water, acid and surface abrasion. Ideal for application to standard grey or colored concrete. SMARTGUARD SP protects and enhances the color intensity on natural concrete, integrally colored concrete and color stained concrete. SMARTGUARD SP provides a long lasting, high gloss finish that maximizes light reflectance and stain protection.

- Sizes: Gallon, 5 Gallon, 55 Gallon Drum

SmartKrete Lithium Concrete Densifier L

Lithium based densifier dramatically increases surface hardness, polish quality and reflectivity. Improves abrasion and stain resistance. UV Stable for indoor/outdoor use. Our formulation contains a higher percentage of lithium which provides increased surface hardness and reflectivity.

- Sizes: 1 Gallon, 5 Gallon

SmartKrete Lithium Premium Concrete Densifier XL

Lithium based densifier dramatically increases surface hardness, polish quality and reflectivity. Improves abrasion and stain resistance. UV Stable for indoor/outdoor use. Our formulation contains a higher percentage of lithium which provides increased surface hardness and reflectivity while reducing dusting and improving abrasion and stain resistance.

- Sizes: Gallon, 5 Gallon, 55 Gallon Drum

ORDER ONLINE
Smartklean L Lithium Fortified Daily Cleaner Concentrate

Smartklean L is a concentrated cleaner specially designed to maintain concrete floors that have been treated with lithium-silicate densifying/hardening products. Concentrated formula is designed for use with automatic floor scrubbers. The specialized blend of degreasers and detergents removes most common soiling found on concrete floors.

- Sizes: 1 Gallon, 5 Gallon

SMARTKRETE PRODUCTS

SmartKrete Polish Pro CT Spray Buff 32 ounce

- Smartkrete Polish Pro CT Spray Buff 32 ounce. One-Step Spray Buff.
- Easy to use spray polish for concrete and terrazzo
- Increases shine, reflectivity on surface making it scuff and abrasion resistant
- Can be used with low-speed or high-speed burnishers
- Polish 600 1200 sq. ft. per hour

SmartKrete SmartSeal SB Concrete Sealer

SmartSeal SB – provides effective water and oil repellency on most substrates with VOC levels low enough to be used in ALL 50 states – no exceptions. This NANO sealer permits maximum penetration at coverage rates higher than that of conventional silanes.

- Penetrating solvent-based impregnating sealer
- VOC Compliant in all 50 states
- Repels water and oil
- High coverage rate
- Resists oil and food stains
- Does not form a surface film or gloss
- Long-lasting protection
- Sizes: 1 Gallon, 5 Gallon
SPRAYERS

Chapin 1 Gallon Acid Stain Sprayer
The Chapin Acid Staining Sprayer is specifically designed and equipped to handle the corrosive chemicals associated with acid staining. The 1-gallon translucent poly tank comes with a wide 4-inch mouth opening for easy filling and cleaning. Adjustable poly cone nozzle sprays coarse stream to a fine mist. Featuring acid and chemical resistant seals and gaskets, pressure relief valve and shut off with lock-off feature to prevent accidental discharge.

ORDER ONLINE

Chapin 2 Gallon No Drip Acid Staining Sprayer
The Chapin Dripless Acid Staining Sprayer is specifically designed and equipped to handle the corrosive chemicals associated with acid staining. The 2-gallon translucent poly tank comes with a wide 4-inch mouth opening for easy filling and cleaning. Boasting a professional dripless shut-off with Comfort Grip Lock-off feature to prevent accidental discharge. An adjustable poly cone nozzle sprays a coarse stream to a fine mist. Featuring acid and chemical resistant seals and gaskets, an in-tank anti-clog filter and pressure relief valve.

ORDER ONLINE

Chapin 4 Gal. Professional Diaphragm Pump Backpack Sprayer
- 4 Gal. translucent tank with 4 in. W mouth opening for easy filling and cleaning
- Diaphragm pump provides compatibility with common fertilizers, weed killers and pesticides in both liquid and wet table powder form
- 3-stage filtration system with in-tank removable/cleanable filter
- Cushion grip poly shut-off with 3 nozzles for a variety of applications
- Padded shoulder straps and lumbar support for comfort

ORDER ONLINE
Chapin 48oz. Industrial Heavy Duty Cleaner / Degreaser Sprayer

Designed for industrial strength cleaners and degreasers, this sprayer features a 48 oz. poly bottle with ergonomic handle. It has chemical-resistant seals and gaskets and an adjustable poly and brass cone nozzle allowing a range of spraying, from fine mist to a coarse stream.

- 48 oz. translucent poly bottle with wide mouth opening for easy filling and cleaning
- Compatible with most industrial chemicals, suitable for homeowners too
- Adjustable cone nozzle and shut-off
- In-tank anti-clog filter
- Ergonomic handle for comfortable spraying

Chapin Industrial Acetone Sprayer

The Chapin Acetone Sprayer is specifically designed and equipped for the decorative concrete professional for use in staining with acetone-based dyes and other acetone only applications. The 48-ounce translucent poly tank has an in-tank anti-clog filter. Adjustable cone nozzle. Featuring acetone resistant seals and gaskets that will stand up to high concentrations of acetone. Great for smaller areas and detail work.

Chapin 2 Gallon Industrial Acetone Sprayer

The Chapin Acetone Sprayer line is specifically designed and equipped for the decorative concrete professional for use in staining with acetone-based dyes and other acetone only applications. The 2-gallon translucent poly tank has a funnel mouth opening with splash guard and in-tank anti-clog filter. Adjustable ceramic tip cone nozzle. Featuring acetone resistant seals, gaskets and hose that will stand up to high concentrations of acetone.
SEALERS (SOLVENT BASED)

STONE PRO Ultimate Pro Impregnating NanoSealer
The best impregnating sealer for granite and dense stone.
- This deep penetrating solvent based sealer offers the highest level of protection against stains from oil and water.
- The most advanced technology available for stain protection
- Non-flammable and safe for food preparation surfaces

STONE PRO Porous Pro Impregnating NanoSealer
The best solvent based impregnating sealer for porous materials such as travertine, limestone and marble. Porous Pro has a larger molecular structure that allows it to protect hard to seal porous surfaces with ease.
- Superior protection from staining
- Non-flammable and safe for food preparation surfaces

STONE PRO Pro Sealer Impregnating NanoSealer
An all purpose solvent based impregnating sealer for marble, granite, travertine, tile and grout.
- Superior stain protection against oil and waterborne stains
- Non-Flammable and safe for food preparation surfaces
SEALERS (WATER BASED)

**STONE PRO Aqua Pro**
Premium protection for projects that require a water based sealer. Offers all the benefits of our ADVANCED FLUOROPOLYMER PROTECTANT in a water based formula. Protects against water and oil based staining. NON-FLAMMABLE and safe for food preparation surfaces.

**STONE PRO Safeguard H20**
General use water based sealer for TILE, GROUT, BRICK and CONCRETE. Excellent water repellant for interior and exterior surfaces. StonePro's most economic sealer.

**STONE PRO Color Enhancer**
Wet-Look penetrating sealer for UN-POLISHED TRAVERTINE, SLATE, BRICK, LANDSCAPE, STAMPED CONCRETE and DECORATIVE CONCRETE. Brings out the natural beauty and enriches the color of unpolished natural stone surfaces leaving a matte finish wet-look. A penetrating sealer that is UV stable will not yellow or peel, for interior and exterior use.

**STONE PRO Stone Gloss**
High gloss modified acrylic-based sealer for slate, brick, stamped concrete and decorative concrete. Stone Gloss is UV-stable will not yellow or peel. For interior and exterior use.

RESTORATION PADS

REV Diamond Polishing system was created with ease of use in mind. The complete REV system consists of 4 steps. The first step is the most aggressive grit that will remove etches and moderate scratch damage. The following steps (2-4) will remove the scratch pattern from the previous pad and improve the color and reflection of the floor, ending with a chemical-free mechanical polished finish with sharp clarity. Available in 17 inch.

17” Resin Diamond Restoration Floor Pads

STEP 1 - Removes scratches, wear damage and stains on natural stone, terrazzo and concrete floors.

STEP 2 - Removes light scratches, wear damage and stains leaving a clean matte finish on natural stone, terrazzo and concrete floors.

STEP 3 - Removes wear patterns and stains leaving a clean satin finish on natural stone, terrazzo and concrete floors.

STEP 4 - Polishes the surface of natural stone, terrazzo and concrete floors. Will not leave an orange peel effect on natural stone.

Weighted Drive Plate

Most other manufacturers stack weights on the top of the machine to add the desired weight. This creates a top-heavy machine that wobbles as it moves from side to side which leads to an uneven surface, polish and shine.

StonePro solves this problem with our weighted drive plates. The weight on the bottom stabilizes the machine.

- Available in 13”, 17” & 20”

ORDER ONLINE

Prep Taping

Polyken 223 Multi-Purpose Duct Tape: 2” x 60 yds.
High adhesion duct tape for a broad range of applications. Applications include sealing duct work; general purpose packaging and repair; holding insulation materials in place; color coding; hanging and seaming poly sheeting; sealing and closure tape for poly bags; temporary holding and bundling; and creating a condensation barrier in refrigeration assemblies. Polyken 223 Duct Tape has good tensile strength, excellent adhesion to a variety of surfaces, is conformable, and will not twist or curl during application.

Scotch 3M Contractor Grade Masking Tape
The professional’s choice in projects where higher adhesion tapes are needed. This tape’s high adhesion level makes it ideal for most coated and non-damageable surfaces. Scotch Masking Tape provide exceptional durability and staying power, yet still offers the same clean removal you would expect from Scotch brand tapes. This tape bonds aggressively, yet is easy to unwind and applies smoothly. Scotch Masking Tape can be used for general home and office use or for hanging poly.

Scotch 3M Heavy Duty Masking Tape Orange
Scotch 3M Heavy Duty Masking Tape Orange features a high visibility orange color with a thick, robust backing. Designed for interior or exterior job site paint masking applications on non-damageable surfaces. Use on vinyl, carpet, metal, and plastic. Scotch® Heavy Duty Masking Tape is recommended for use with or on lacquer coatings. This tape holds to surfaces for up to 3 days and then removes easily without leaving any sticky residue behind.
MALISH® GRIT BRUSHES

MALISH Black 80 Grit Mal-Grit
An aggressive brush for general scrubbing or stripping finishes from hard surfaces. Effectively cleans wide grout lines.
- Available in 17”

MALISH Blue 180 Grit Clean-Grit
An excellent general scrubbing brush for frequent maintenance cleaning. Flexible enough for cleaning narrow grout lines and uneven surfaces.
- Available in 17”

MALISH Green 120 Grit Mal-Grit Scrub
Ideal for daily scrubbing and maintenance. While the smaller diameter bristles offer flexibility, the larger grit size offers exceptional scrubbing.
- Available in 17”

MALISH Mighty-Lok
The molded polymer pad face has hundreds of individual hooks that grip into the threads of a floor pad and hold it securely while operating. The pad driver block includes a built-in riser and a showerfeed system allowing it to be used with solution dispensing machines.
- Available in 13”, 17” & 20”
MALISH® GRIT BRUSHES

MALISH Orange 46 Grit Mal-Grit Xtra
The most aggressive grit available. This heavy gauge nylon with larger grit is used for stripping heavily soiled floors, such as concrete floors in an industrial setting.
• Available in 17”

MALISH Red/ Brown 500 Grit Mal-Grit Lite
Offers the durability of grit brushes with minimum aggression. For daily scrubbing of a variety of tiles, marble, terrazzo and non-slip epoxy finishes.
• Available in 17”

MALISH Stabi Pad Driver
Heavy polypropylene strands trimmed irregular at 3/4” are staple making this the superior tufted pad driver choice. Tufts penetrate into the pad for secure holding power.
• Available in 17”

MALISH Tampico Scrubbing Brush
100% White Tampico is naturally acid resistant. That makes this the ideal choice for use in the marble polishing industry. Great for general scrubbing and polishing on other hard surface floors as well. Long Lasting natural fiber brush for scrubbing and cleaning.
• Available in 13”, 17” & 20”
DIAMOND RESIN PADS

Ideal for polishing marble countertops and showers. Available in 4”, 5” and 7” diameters. Great for Marble, Granite and Concrete.
- Grits: 50, 70, 120, 220, 400, 600
- Available in 3”, 5”, 7”
MAINTENANCE PADS

STONE PRO Black Floor Stripping Maintenance Pads

Durable, long lasting, and designed with open construction to allow finish and stripping solutions to flow through and to resist clogging. Thicker pad with open web structure for longer life and less loading. Manufacturing process efficiencies for increased tensile strength and uniform grain distribution. Breadth of line for broadest application coverage.

- Aggressively removes floor finish and dirt, cleans down to original surface
- Use with floor machines up to 350 RPM
- Designed for heavy duty wet stripping
- Available in 7”, 17” & 20”

STONE PRO Green Floor Scrubbing Maintenance Pads

Durable, long lasting, and designed with open construction to allow finish and stripping solutions to flow through and to resist clogging. Thicker pad with open web structure for longer life and less loading. Manufacturing process efficiencies for increased tensile strength and uniform grain distribution. Breadth of line for broadest application coverage.

- Aggressively removes dirt and scruff marks from heavily soiled floors
- Use with floor machines up to 350 RPM
- Designed for heavy duty wet scrubbing or light stripping
- Available in 7”, 17” & 20”

STONE PRO Hogs Hair Extreme Polishing Floor Pads

Higher solid and harder finishes are in high demand, and to achieve this look, you need a more aggressive pad. The Extreme Hogs Hair Pad contains the highest concentration of hog hair available. These pads are ideal for use on machines up to 3,000 RPM to achieve that desired polish. A blend of natural fiber and polyester with the majority natural fiber provides the optimum “wet look” finish.

- Use with floor machines up to 3,000 RPM
- Available in 7”, 17” & 20”

STONE PRO Hogs Hair Polishing Floor Maintenance Pads

Natural Fibers produce wet look finish. Use dry or with spray buff solution. For minimal burnishing on hard finish. Hogs Hair floor pad is made with a blend of natural fiber and polyester. To clean it, just brush away dried wax with it’s die cut center. It will not glaze over.

- Use with floor machines up to 3,000 RPM
- Available in 7”, 17” & 20”
MAINTENANCE PADS

STONE PRO Red Floor Buffing Maintenance Pads
Generally used where a high gloss finish is desired when dry or spray buffing. It can also be used for light cleaning applications. Removes light scuff marks and dirt while producing a high gloss surface.
• Produces a high gloss finish when buffing dry or spray buffing
• Use with floor machines up to 800 RPM
• Available in 7”, 17” & 20”

ORDER ONLINE

STONE PRO Tan Floor Buffing Maintenance Pads
For use with ultra high speed machines (1,500-3,000 RPM) on harder finishes or in high traffic areas. Produces brilliant wet-look in gloss. Designed for exceptional durability, life and superior mark removal.
• For dry buffing and light cleaning. Removes light scuff marks and dirt while shining floors.
• Use for buffing or limited spray cleaning on harder finishes and high traffic conditions.
• Made of polyester fiber in a non woven web having resins throughout and bonded to the web structure.
• Produces good gloss improvement while removing scuffs and marks. Exceptional durability.
• Use with floor machines up to 800 RPM
• Available in 17”

ORDER ONLINE

STONE PRO White Floor Maintenance Pads
Extra fine pads for polishing clean dry floors. Use dry or with restorative chemicals to produce a wet look gloss.
• Thicker pad with open web structure for longer life and less loading
• Manufacturing process efficiencies for increased tensile strength and uniform grain distribution
• Breadth of line for broadest application coverage
• A non-abrasive polishing/buffing pad, used dry or with a fine mist to yield a mirror gloss shine
• Use with floor machines up to 3,000 RPM
• Available in 7”, 17” & 20”
